18 January 1957

MEMORANDUM FOR: Members of the Utilization Advisory Board

SUBJECT : Outside Consultation on HTAUTOMAT Problems

1. At the IAC meeting on 15 January 1957, the IAC was agreeable to the following procedures designed to avoid confusion as the various agencies proceed to hold consultations with outside consultants:

a. That normally such consultations should take place on the basis of sanitized materials only;

b. That the responsibility for establishing the TS clearance of a consultant rests with the agency initiating the consultation;

c. That each agency is to get approval from the Secretary of the Utilization Advisory Board for the consultation, which is principally an approval that the material is adequately sanitized;

d. That the Secretary of the Utilization Advisory Board will either inform other interested agencies that such consultation is planned and to obtain their comments or will see that it is done;

e. That conflicts arising from the comments received by the participating agencies will be subject to resolution by the Secretary of the Utilization Advisory Board or by that Board.

f. That the results of the consultations will be disseminated to all appropriate agencies.

2. The Secretary of the Utilization Advisory Board has been notified that the following consultations have already taken place:

a. Army

Dr. Werner Von Braun - 14 January 1957

Dr. Herbert York - 15 January 1957

b. Air Force

Dr. Edward Teller - 11 January 1957

Dr. Mark Mills - 11 January 1957

Mr. George M. Ives - 11 January 1957

Mr. L. H. Bayer - 11 January 1957
